ORGANIX SOLUTIONZ

Product Description

OVERVIEW

Aluminum powder-coated finish sanitiser bollard, with aluminum piston and pedal, ideal for indoor & outdoor applications.

Stainless Steel | Pedal Activated.

Made in Australia, the stainless steel bollard dispenser is simple, fully mechanical and available with refills of high-grade, hospital grade Australian made hand sanitiser + hand food. Sanitise your hands while keeping them healthy. The foot pedal activation avoids the risk of your hands being contaminated.

The stand is fast and easy to assemble. It is suitable as an independent stand or can be fixed to the ground and is robust and vandal proof.

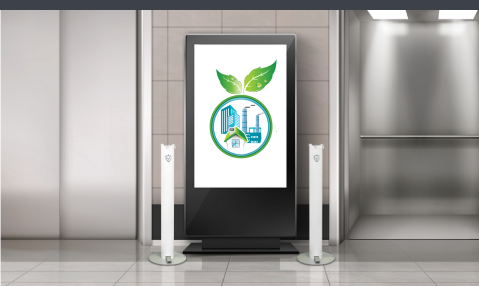

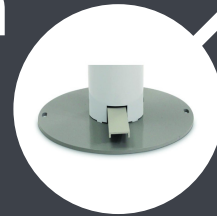

Made locally in all regions ensuring a reliable supply chain and guaranteed quality.
